Wavelength Sailing School

Are you:

- A new keelboat owner
- Wanting to get sailing experience or refresh your sailing skills with a coach?
- Wanting to get big boat (40' plus) experience
- Wanting to schedule a course to suit your timing
- Wanting to schedule a course with friends?

Then a custom course/ sailing experience may be right for you.

We specialize in custom, private courses for individuals, couples, families or small groups. Our highly-trained instructors ensure you receive individual attention and enough hands-on instruction and experience to give you the confidence you need to enjoy sailing.

Because we are a small school, we are able to customize our training to fit your needs. For example we can teach multi-level courses and we can include an "Introduction to sailing" component so the kids certify as well.

We can teach on our own boats or through our relationships with charter companies larger boats on Lake Ontario, the North Channel of Lake Huron or in the Caribbean.

Perhaps you own a keelboat already? If so, a private course on your own boat might be the best option. You will learn specific techniques appropriate to handling your boat, as well as tips regarding your equipment, rig tuning, and boat handling overall. We can also provide training for specific skills such as docking, flying a spinnaker, or sail trim and rig tuning targeted to your needs.

Our instructors are also available to assist with boat delivery, or we can combine a delivery and a course to maximize the use of your time and enjoyment of your boat.
